1 AUTHORIZING LEGISLATION AND FUNDING

The Alaska Housing Finance Corporation (the "Corporation") or ("AHFC"), a public corporation and government instrumentality of the State of Alaska (the "State"), was created in 1971, and substantially modified in 1992, by acts of the Alaska State Legislature (the "Legislature") to assist in the financing, development and sale of dwelling units, operate the State's public housing, offer various home loan programs emphasizing housing for low and moderate-income and rural residents, and administer energy efficiency and weatherization programs within Alaska. The Corporation is a component unit of the State and is discretely presented in the State's financial statements.

Generally, the Corporation accomplishes its mortgage-related objectives by functioning as a secondary market for qualified real estate loans originated by financial institutions. The Corporation is authorized by the Legislature to issue its own bonds, bond anticipation notes and other obligations in such principal amounts as, in the opinion of the Corporation, will be necessary to provide sufficient funds for carrying out its purpose. Certain bonds issued to finance residences for qualified veterans are unconditionally guaranteed by the State. No other obligations constitute a debt of the State.

The non-mortgage related programs of the Corporation are funded through various grant and program agreements with the federal government's departments of Housing and Urban Development ("HUD"), Agriculture ("USDA"), Veterans Affairs "(VA"), Treasury ("DOT"), Energy ("DOE"), and Health and Human Services ("HHS"), funding from the State of Alaska, as well as capital and operating subsidies from the Corporation's own funds.

The Corporation has affiliates incorporated under the Alaska Nonprofit Corporation Act (AS 10.20) and provisions of the Alaska Housing Finance Corporation Act (AS 18.56), as amended. Each affiliate issues annual audited financial statements. Copies may be found at the following links, or please contact AHFC to obtain a copy. The affiliates are as follows:

- Northern Tobacco Securitization Corporation ("NTSC") incorporated on September 29, 2000, pursuant to House Bill No. 281 of the 2000 Legislature. https://www.ahfc.us/about-us/subsidiaries/ntsc-financial-statements/
- Alaska Housing Capital Corporation ("AHCC") incorporated on May 23, 2006, pursuant to Senate Bill
 No. 232 of the 2006 Legislature. https://www.ahfc.us/about-us/subsidiaries/ahcc/ahcc-financial-statements/
- Alaska Corporation for Affordable Housing ("ACAH") incorporated on February 1, 2012, pursuant to
 House Bill No. 119 of the 2011 Legislature. https://www.ahfc.us/about-us/subsidiaries/alaska-corporation-affordable-housing-acah/acah-financial-statements/
- Alaska Sustainable Energy Corporation ("ASEC") incorporated on November 5, 2024, pursuant to House Bill No. 273 of the 2024 Legislature.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Financial Reporting Entity

The financial reporting entity consists of AHFC and the blended component unit ACAH. The entities are closely related and financially integrated. The board of directors for AHFC and ACAH are the same and both entities have similar mission statements. ACAH is a legally separate entity from AHFC, but is considered a blended component unit of AHFC due to AHFC's operational responsibility for ACAH and the potential financial benefit or financial burden between AHFC and ACAH. AHFC is financially accountable for ACAH.

The other affiliates of AHFC are not closely related to, nor financially integrated with AHFC. There is no financial accountability for the other affiliates by AHFC. They are not component units of AHFC, hence they are not included in these financial statements. NTSC, AHCC and ASEC are component units of the State.

Neither AHFC nor the State is liable for any debt issued by NTSC, AHCC and ASEC. They are government instrumentalities of, but have a legal existence separate and apart from, the State. The State is additionally not liable for any debt issued by ACAH.

Basis of Accounting

The financial reporting entity utilizes the economic resource measurement focus and full accrual basis of accounting

A Component Unit of the State of Alaska

wherein revenues are recognized when earned and expenses when incurred. The financial statements have been prepared in conformity with generally accepted accounting principles ("GAAP") as prescribed by the Governmental Accounting Standards Board ("GASB"). GASB is the accepted standard-setting body for governmental accounting and financial reporting principles as set forth in GASB's pronouncements.

Basis of Presentation

The financial reporting entity is engaged in business-type activities that utilize enterprise funds. The basic fund financial statements are comprised of the Statement of Net Position (Exhibit A), the Statement of Revenues, Expenses and Changes in Net Position (Exhibit B), the Cash Flow Statement (Exhibit C) and the accompanying note disclosures. The supplementary section contains combining financial statements by program, purpose, or bond indenture.

The basic financial statements include a Total Programs and Funds column representing an aggregate of AHFC amounts, and a Total column for the financial reporting entity, an aggregation of both AHFC and ACAH amounts.

Major Funds and Component Unit

The basic fund financial statements present the major funds of AHFC and the major component unit ACAH.

Administrative Fund: This is the Corporation's primary operating fund. It accounts for all financial resources of the Corporation not accounted for in other funds.

Grant Programs: Resources provided to other agencies and individuals to develop and improve affordable housing units for lower income families, to assist in improving the energy efficiency of Alaska homes, and to provide tenant-based rental assistance programs for families in the private market (administered by the Corporation under contract with HUD).

Mortgage or Bond Funds: Provides resources to assist in the financing of loan programs or to fund Legislature appropriations.

Other Funds or Programs: Includes the Low Rent program and other affordable housing for low income families managed under contract with HUD, but owned by AHFC; as well as, the Home Ownership Fund and the Senior Housing Revolving Loan Fund.

Component Unit ACAH: A non-profit public benefit corporation that develops and operates affordable housing for Alaskans, utilizing various funding sources. ACAH is reported as a major component unit for the benefit of users of AHFC's financial statements.

Restricted Net Position

The restricted net position of the Administrative Fund consists of the Corporation's remaining commitments to the State (refer to Footnote No. 19 State Authorizations and Commitments for further details) and resources of the Affordable Housing Development Program. The remaining resources of the Administrative Fund are unrestricted.

The other financial activities of the Corporation are restricted by the Corporation's bond indentures, requirements from the Legislature, and statutory requirements or third-party agreements that restrict the use of resources. These restricted resources are recorded in various special purpose funds and accounts. Restricted funds with a net deficit balance are shown as having an unrestricted net position balance pursuant to reporting requirements.

When both restricted and unrestricted resources are available in a fund, it is the Corporation's policy to spend restricted funds to the extent allowed and only spend unrestricted funds when needed.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates. The major estimate for the Corporation is the allowance for loan losses.

Investments

All investments are stated at fair value.

Accrued Interest Receivable on Loans and Real Estate Owned

Interest is accrued based upon the principal amount outstanding. Accrual of interest income is discontinued on loans when, in the opinion of management, collection of such interest becomes doubtful. When payment of interest is provided for pursuant to the terms of loan insurance or guarantees, accrual of interest on delinquent loans and real estate owned is continued.

Loans and Allowances for Estimated Loan Losses

Mortgage loans are carried at their unpaid principal balances net of allowance for estimated loan losses. Once monies have been disbursed, the mortgage loans are recorded.

The Corporation provides for possible losses on loans on which foreclosure is anticipated. A potential loss is recorded when the net realizable value, or fair value, of the related collateral or security interest is estimated to be less than the Corporation's investment in the property less anticipated recoveries from private mortgage insurance, private credit insurance, and various other loan guarantees. In providing for losses, through a charge to operations, consideration is given to the costs of holding real estate, including interest costs. The loan portfolio, property holding periods and property holding costs are reviewed periodically. A general allowance is applied to the performing loan portfolio, and a specific reserve on individual non-performing. This can be modified. While management uses the best information available to make evaluations, future adjustments to the allowances may be necessary if there are significant changes in economic conditions or property disposal programs.

Real Estate Owned

Real estate owned consists principally of properties acquired through foreclosure or repossession and is carried at the lower of cost or estimated net realizable value. These amounts are included in other assets.

Depreciation

Depreciation and amortization of buildings, equipment, and leasehold improvements are computed on a straight-line basis over the estimated useful lives of the related assets. Estimated useful lives range from 3 to 40 years. The capitalization threshold is \$5,000.

Bonds

The Corporation issues bonds to provide capital for its mortgage programs and other uses consistent with its mission. The bonds are recorded at cost plus accreted interest and premiums, less discounts. Discounts and premiums are amortized using the straight-line method. Costs of issuance are expensed when incurred.

Deferred Debt Refunding Expenses

Deferred debt refunding expenses occur when new debt is issued to replace existing debt. The differences between the carrying value of the old debt and the resources used to redeem it are called deferred debt refunding expenses. The unamortized balances of these expenses are recorded as deferred outflows of resources. These expenses are amortized over the shorter of the remaining life of the old debt or the remaining life of the new debt.

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pension, and pension expense, information about the fiduciary net position of the Public Employees' Retirement System ("PERS") and additions to/from the PERS fiduciary net position have been determined on the same basis as they are reported by PERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Other Post-Employment Benefits

Information about the Other Post-Employment Benefits ("OPEB") fiduciary net position of the PERS plans has been determined on the same basis as reported by PERS. The PERS information includes the valuation of the net OPEB asset, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense. Benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Leases

The Corporation recognizes Right of Use Assets, Lease Liabilities, Lease Receivables and Deferred Inflow of Resources for lease contracts with terms greater than 12 months. The Corporation as a Lessee records the Right of Use Assets and Lease Liability, and as a Lessor, records Lease Receivable and Deferred Inflow of Resources, measured at present value of future lease payments and receipts respectively, discounted at Corporation's incremental borrowing rate of 5%. Finance lease costs are recognized in two components, interest expense and amortization expense. As payments are received over the term of the lease, lease revenues are recognized in two components, interest revenue on lease receivable and revenue from amortization of deferred inflow of resources.

Derivative Instruments-Interest Rate Swaps

Subject to certain restrictions, the Corporation's Fiscal Policies allow it to enter into derivative financial instruments called interest rate swap agreements, or swaps. The Corporation enters into swaps with various counterparties to achieve a lower overall cost of funds for certain bond issuances. Under these agreements, the Corporation pays a fixed interest rate to a counterparty in exchange for a variable interest rate payment from that counterparty, or vice versa. All swaps are presented at fair value, with the change in fair value of hedgeable derivatives being recorded as deferred inflows of resources or deferred outflows of resources, and the change in fair value of investment derivatives being recorded as investment revenue.

A Component Unit of the State of Alaska

Operating Revenues and Expenses

The Corporation is authorized to issue bonds to finance the purchase of mortgage loans made to borrowers and to fund other lawful activities of the Corporation. Operating revenues are primarily derived from interest income on mortgage loans and investments. Additionally, the Corporation's statutory purpose includes providing financial assistance programs for rental subsidies to tenants of various housing developments. The Corporation records all revenues from mortgages and loans, investments, rental activities, and externally funded programs as operating revenues. The primary costs of providing these programs are recorded as operating expenses.

Income Taxes

The Corporation is exempt from federal and state income taxes.

3 Cash and Investments

Cash consists of demand deposits, time deposits, and cash held in trust. The carrying amount of the Corporation's cash is restricted by bond resolutions, contractual agreements, and statutory agreements. A summary of the Corporation's cash is shown below (in thousands):

| | December 31, 2024 | | | | | |
|-------------------|-------------------|--------|--|--|--|--|
| Restricted cash | \$ | 58,685 | | | | |
| Unrestricted cash | | 30,791 | | | | |
| Carrying amount | \$ | 89,476 | | | | |
| Bank balance | \$ | 74,863 | | | | |

Investment Valuation

AHFC categorizes its fair value measurements within the fair value hierarchy established by Generally Accepted Accounting Principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

AHFC measures its investments using quoted market prices (Level 1 inputs).

Investment Maturities

The fair value of debt security investments by contractual maturity is shown below (in thousands). Expected maturities may differ from contractual maturities because borrowers may have the right to call or prepay obligations with or without penalty.

| | | Inves | tmer | t Maturiti | es | | | | |

Restricted Investments

A large portion of the Corporation's investments, \$252,335,000, is restricted by bond resolutions, contractual agreements and statutory agreements. The remainder, \$255,589,000, is unrestricted.

Realized Gains and Losses

The calculation of realized gains and losses is independent of the calculation of the net increase in the fair value of investments. Realized gains and losses on investments that had been held in more than one fiscal year and sold in the current period may have been recognized as an increase or decrease in the fair value of investments reported in the prior year. The net increase in the fair value of investments in the table below includes all changes in fair value (including purchases and sales) that occurred during the period. A summary of the gains and losses is shown below (in thousands):

| Original Amount | December 31, 2024 |
|---------------------------------------|-------------------|
| Ending unrealized holding gain | \$ 4,224 |
| Beginning unrealized holding gain | 5,899 |
| Net change in unrealized holding gain | (1,675) |
| Net realized gain (loss) | 2,394 |
| Net increase (decrease) in fair value | \$ 719 |

Deposit and Investment Policies

The Corporation utilizes different investment strategies depending upon the nature and intended use of the assets being invested. All funds are classified as trusted or non-trusted, and this classification determines the applicable investment guidelines used by staff when making investment decisions. Trusted funds are invested in accordance with their respective indentures or governing agreements. Non-trusted funds are governed by the terms outlined in the Corporation's Fiscal Policies and are typically invested to meet future projected funding need.

The following securities are eligible for investment under the Corporation's Fiscal Policies.

- Obligations backed by the full faith and credit of the United States;
- Obligations of U.S. government-sponsored enterprises ("GSEs") and federal agencies not backed by the full faith and credit of the United States;
- Obligations of the World Bank rated at least "AA" by S&P or "Aa2" by Moody's or "AA" by Fitch if maturing in excess of one year or "A-1" by S&P or "P-1" by Moody's or "F1" by Fitch if maturing in one year or less;
- Money market funds rated at least "AAm" by S&P or "Aa-mf" by Moody's or "AAmmf" by Fitch;
- Banker's acceptances and negotiable certificates of deposit of any bank, the unsecured short-term obligations of which are rated at least "A-1" by S&P or "P-1" by Moody's or "F-1" by Fitch and which is incorporated under the laws of the United States of America or any state thereof and subject to supervision and examination by federal or state banking authorities, or which is a foreign bank with a branch or agency licensed under the laws of the United States of America or any state thereof and subject to supervision and examination by federal or state banking authorities, or which is a foreign bank having a long-term issuer rating of at least "AA" from S&P or "Aa2" from Moody's or "AA" from Fitch;
- Commercial paper, including asset-backed commercial paper, rated at least "A-1" by S&P or "P-1" by Moody's or "F1" by Fitch;
- Repurchase agreements ("repos") where: the counterparty is designated as a primary dealer by the Federal Reserve and has a long-term debt rating of at least "A" by S&P or "A" by Moody's or "A" by Fitch or a short-term rating of at least "A-1" by S&P or "P-1" by Moody's or "F-1" by Fitch; collateral is pledged at a minimum level of 102%, valued on a daily basis with a one-business-day cure period; the term of such repurchase agreement is one week or less; a third-party custodian acting as the Corporation's agent has possession of the collateral and holds such collateral in the Corporation's name; the agreement is evidenced by standard documents published by the Securities Industry and Financial Markets Association ("SIFMA"); and the securities to be repurchased are obligations backed by the full faith and credit of the United States or obligations of U.S. government-sponsored enterprises and federal agencies not backed by the full faith and credit of the United States or obligations of the World Bank rated at least "AA" by S&P or "Aa2" by Moody's or "AA" by Fitch if maturing in excess of one year or "A-1" by S&P or "P-1" by Moody's or "F1" by Fitch if maturing in one year or less:
- Guaranteed investment contracts with a financial institution having outstanding unsecured long-term obligations rated, or an investment agreement rating of, at least "AA" by S&P or "Aa2" by Moody's or "AA" by Fitch, or, if the term is one year or less, at least "A-1" by S&P or "P-1" by Moody's or "F-1" by Fitch;

- Fixed and floating-rate notes and bonds, other than commercial paper, issued by corporate or municipal obligors and rated at least "AA" by S&P or "Aa2" by Moody's or "AA" by Fitch if maturing in excess of one year, or at least "A-1" by S&P or "P-1" by Moody's or "F1" by Fitch if maturing, or with a provision for investor withdrawal or put at par, in one year or less:
- Asset-backed securities, other than asset-backed commercial paper, rated at least "AA+" by S&P or "Aa1" by Moody's or "AA+" by Fitch; and
- Investment pools managed by the State of Alaska, including the General Fund and Other Non-Segregated Investments ("GeFONSI") pool.

Credit Risk

Credit risk is the risk of loss due to the failure of the security or backer. The Corporation mitigates its credit risk by limiting investments to those permitted in its Fiscal Policies and relevant governing agreements, diversifying the investment portfolio, and pre-qualifying firms with which the Corporation administers its investment activities.

The credit quality ratings of the Corporation's investments as of December 31, 2024, as determined by nationally recognized statistical rating organizations, are shown below (in thousands), and do not include investments held by GeFONSI pool.

Concentration Risk

Concentration risk is the risk of loss attributed to the magnitude of the Corporation's investments in a single issuer. Concentration limits are not established in the bond indentures and governing agreements for trust investments. The following table details the maximum concentration limits for non-trust investments as outlined in the Corporation's Fiscal Policies. Under certain conditions, the Fiscal Policies permit investments in excess of these limits. For more information, please see the Corporation's Fiscal Policies at: http://www.ahfc.us/pros/investors/fiscal-policies.

Investment Holdings Greater than Five Percent of Total Portfolio

The following investment holdings, summarized by issuer, include both investments that are governed by the maximum concentration limits of the Corporation's Fiscal Policies and trusted investments which have no established concentration limits. As of December 31, 2024, the Corporation had investment balances greater than 5 percent of the Corporation's total investments with the following issuers (in thousands).

| Issuer | Investment Fair Value | | Investment Category |
|----------------------|--------------------------|-------------|------------------------|
| Morgan Stanley | \$ 111 | ,789 22.01% | MMF |
| Royal Bank of Canada | 44 | -,934 8.85% | CP |
| Bank of Nova Scotia | 25 | 5,572 5.03% | CD |
| _ | \$ 182 | 2,295_ | |

Custodial Credit Risk

The Corporation assumes levels of custodial credit risk for its deposits with financial institutions, bank investment agreements, and investments. For deposits, custodial credit risk is the risk that, in the event of a bank failure, the Corporation's deposits may not be returned. For bank investment agreements and investments, custodial credit risk is the risk that, in the event of failure of the custodian or counterparty holding the investment, the Corporation will not be able to recover the value of the investment. As stated in the Corporation's Fiscal Policies, credit risk is mitigated by limiting investments to those highly-rated securities permitted in the Fiscal Policies and by pre-qualifying firms through which the Corporation administers its investment activities.

Of the Corporation's \$74,863,000 bank balance as of December 31, 2024, cash deposits in the amount of \$199,000 was uninsured and uncollateralized.

Interest Rate Risk

Interest rate risk is the risk that the market value of investments will decline as a result of changes in general interest rates. As stated in the Corporation's Fiscal Policies, for non-trust investments, the Corporation mitigates interest rate risk by structuring its investment maturities to meet cash requirements (including corporate operations), thereby avoiding the need to sell securities in the open market prior to maturity. For investments held in trust, investment maturities are structured to meet cash requirements as outlined in the bond indentures and contractual and statutory agreements.

The GeFONSI pool investment interest rate risk details are at the end of this footnote.

Modified Duration

Modified duration estimates the sensitivity of an investment to interest rate changes. The following table shows the Corporation's trusted and non-trusted investments (in thousands, net of GeFONSI holdings) with their modified duration as of December 31, 2024, in thousands:

| Issuer | | restment iir Value | Modified Duration |

| Portfolio modified duration | \$ | 477,461 | 0.547 |

Investment in GeFONSI Pool

The Alaska State Department of Revenue, Treasury Division, has established various investment pools to manage funds for which the Commissioner of Revenue has fiduciary responsibility. The GeFONSI pool in which the Corporation

participates is itself comprised of investment shares of the State's Short-term Fixed Income, and Intermediate-term Fixed Income investment pools. Assets in these pools are reported at fair value with purchases and sales recorded on a trade-date basis. Securities are valued each business day using prices obtained from a pricing service. The complete financial activity of the State's investment pools is shown in the Annual Comprehensive Financial Report (ACFR) available from the Department of Administration, Division of Finance.

The accrual basis of accounting is used for the investment income and GeFONSI investment income is distributed to pool participants monthly if prescribed by statute or if appropriated by state legislature. Income in the Short-term, Short-term Liquidity and Intermediate-term Fixed Income Pools is allocated to the pool participants daily on a pro-rata basis. The fair value of the Corporation's investment in the GeFONSI pool was \$30,463,000 as of December 31, 2024.

For additional information on interest rate risk, credit risk, foreign exchange, derivatives, fair value, and counterparty credit risk see the separately issued report on the Invested Assets of the Commissioner of Revenue at: http://treasury.dor.alaska.gov/Investments/Annual-Investment-Reports.aspx.

4 Interfund Receivable/Payable

A summary of the interfund receivable/payable balance as of December 31, 2024, is shown below (in thousands):

| | | | Due F | rom | | | |
|-----|--|------------------------|-------------------|---------------------------------|-------------------------------|--|-----------|
| | | Administrative Fund | Grant Programs | Mortgage or Bond Programs | Other Funds or Programs | Alaska Corporation for Affordable Housing | Total |
| ဥ | Administrative Fund | \$ - | \$ 11,009 | \$ - | \$ 1,998 | \$ 82 | \$ 13,089 |
| Due | Grant Programs | 35,129 | - | - | - | 1,423 | 36,552 |
| | Mortgage or Bond Programs Other Funds or | 36,296 | - | - | - | - | 36,296 |

| | Total | \$ 71,844 | \$ 11,009 | \$ - | \$ 1,998 | \$ 1,505 | \$ 86,356 |

The balance due to the Mortgage or Bond programs from the Administrative Fund resulted primarily from monies belonging to these funds being deposited in an Administrative Fund account to obtain a greater rate of return.

The balance due to the Administrative Fund from Grant Programs, Other Funds or Programs, and ACAH resulted primarily from expenditures paid by the Administrative Fund on behalf of those programs, as well as an allocation of management and bookkeeping fees mandated by HUD.

The balance due from ACAH to the Grant Programs is the result of a repayable grant to ACAH for the purchase of land in 2013.

5 MORTGAGE LOANS, NOTES AND OTHER LOANS

A summary of mortgage loans, notes and other loans as of December 31, 2024, is shown below (in thousands):

| | December 31, 2024 |
|------------------------------|-------------------|
| Mortgage loans | \$ 3,403,449 |
| Multifamily loans | 375,567 |
| Other notes receivable | 72,104 |
| | 3,851,120 |
| Less: | |
| Allowance for losses | (50,265) |
| Net Mortgages, Notes & Other | \$ 3,800,855 |

Of the \$3,851,120,000 mortgage loans, notes, and other loans, \$114,750,000 is due within a year.

Other notes receivable include monies due to AHFC for various unconventional loan programs, monies remaining unexpended by grant recipients, and notes receivable due to ACAH of \$28,152,000. Included in the allowance for losses is \$8,407,000 for ACAH's notes receivable bringing ACAH's net notes receivable to \$19,745,000.

Other supplementary loan information is summarized in the following table (in thousands):

| | December 31, 2024 | | |
|--------------------------------------|-------------------|---------|--|
| Loans Delinquent 30 days or more | \$ | 91,845 | |
| Foreclosures during reporting period | | 1,567 | |
| Loans in foreclosure process | | 10,262 | |
| Mortgage-related commitments: | | | |
| To purchase mortgage loans | \$ | 107,759 | |

6 INSURANCE AGREEMENTS

The Corporation has obtained private mortgage insurance, credit insurance, or guarantees on certain mortgages and loans. The agreements protect the Corporation to varying degrees against losses arising from the disposition of the related collateral obtained through foreclosure or repossession, as well as the costs of obtaining title to, maintaining, and liquidating the collateral. The Corporation is exposed to losses on disposition in the event the insurers or guarantors are unable or refuse to meet their obligations under these agreements.

7 LEASES

Lease Liability and Asset

As of December 31, 2024, the Corporation recognized a total of \$7,648,000 Lease Liability, comprised of \$588,000 Current Lease Liability and \$7,060,000 Long term Lease Liability. Also recognized is \$8,383,000 Right-of-Use Asset and related accumulated amortization of \$1,085,000. The Corporation as a Lessee records the Right-of-Use Asset and Lease Liability at present value of future lease payments discounted at weighted-average discount rate, based on the Corporation's incremental borrowing rate of 5% subject to reexamination on annual basis.

The Corporation leases certain office facilities and equipment for various terms under long-term, non-cancelable operating lease agreements. The leases expire at various dates through 2041 and provide for renewal options ranging from one year to ten years. The Corporation included in the determination of the right-of-use asset and lease liabilities any renewal options when the options are reasonably certain to be exercised. The leases provide for increases in future minimum annual rental payments based on lease agreements subject to certain minimum increases.

Remaining obligations associated with these leases are as follows (in thousands):

| Date | Interest Due | Principal Due |
|---------------------|--------------|---------------|
| 6/30/2025 | \$ 367 | \$ 588 |
| 6/30/2026 | 345 | 600 |

A Component Unit of the State of Alaska

Lease Receivable

In 2007, the Corporation constructed a parking garage (the "Pacillo Parking Garage") in downtown Anchorage with its corporate assets. The Pacillo Parking Garage cost \$44,000,000 and was leased to the State of Alaska for use by its departments and agencies located in Anchorage.

The State has the option to purchase the Pacillo Parking Garage for \$1 after December 1, 2027, which is the end of the lease. In 2015, the Corporation issued its State Capital Project Bonds II, 2015 Series B and C, respectively, to partially refund its State Capital Project Bonds, 2007 Series A, which were originally issued in 2007 to finance the Pacillo Parking Garage.

As of December 31, 2024, the Corporation recognized valuation of Lease Receivable of \$10,158,000 measured based on discounted future lease at Corporation's incremental borrowing rate of 5%, subject to reexamination on annual basis. The following table lists the components of the Lease Receivable and shows the future minimum payments under the lease for the next three years (in thousands):

Future Minimum Payments Due

| Twelve Months Ending December 31, | Total |
|---|-----------|
| 2026 | 3,304 |
| 2027 | 3,304 |
| 2028 | 3,302 |
| Gross payments due | 9,910 |
| Plus: Interest amortization adjustments | 248 |
| Net Lease Receivable – Pacillo Parking Garage | \$ 10,158 |

The Corporation receives lease payments from leasing certain properties to a local charitable organization in the form of a monthly utility offset payment. The lease term commenced on April 1, 2009, through June 30, 2019. The Corporation opted to renew for an additional 10 year period, which terminates this lease in March 2029. As of December 31, 2024, the Corporation recognized a Lease Receivable from this lease of \$73,000 measured at present value of future lease receivable expected to be received during the lease term discounted at 5% incremental borrowing rate.

ACAH receives lease payments from leasing various properties in Anchorage, Wasilla, and Fairbanks in the form of monthly and annual payments. The lease terms expire at various dates through 2078 and provide for renewal options of one year. As of December 31, 2024, ACAH recognized a Lease Receivable of \$3,321,000 measured at the present value of future lease receivable expected to be received during the lease term discounted at the 5% incremental borrowing rate.

As of December 31, 2024, AHFC recognized a combined total Lease Receivable as follows (in thousands):

| Lease Receivable December 31, 2 | | 1, 2024 |
|------------------------------------|----|---------|
| Pacillo Parking Garage | \$ | 10,158 |
| ACAH Properties | | 3,321 |

The above capital assets include \$5,120,000 of land and land improvements that belong to ACAH.

Depreciation expense charged by the Corporation was \$3,092,000 for the six months ended December 31, 2024.

The Corporation is obligated under contracts and other commitments to purchase and/or modernize certain fixed assets. The total commitment, including amounts to be funded by third parties, was \$11,510,000 as of December 31, 2024.

In 2017, the State exercised the option to purchase the Atwood Office Building and associated land, identified as Block 79, for \$1. The Atwood Office Building was leased to the State of Alaska as part of the Corporation's State Building Lease Program. Block 102, containing land the State did not transfer but may take ownership of at a later date, is reported as a Corporation asset at the assessed value of \$4,175,000, with a net book value of zero in the Other Non-Current Assets section of the financial statements, pending potential future transfers.

9 Deferred Outflows of Resources

The Government Accounting Standards Board has defined deferred outflows of resources as the consumption of resources that are applicable to a future period. AHFC's deferred outflows of resources as of December 31, 2024, were interest rate swap derivatives of \$23,311,000, deferred debt refunding expense of \$15,647,000, pension deferred outflows of \$3,363,000, and other post-employment benefits deferred outflows of \$3,612,000, for a total of \$45,933,000.

10 BONDS PAYABLE

All of the bonds are general obligations of the Corporation for which its full faith and credit are pledged. All of the bonds are secured, as described in the applicable agreements, by the revenues, monies, investments, mortgage loans, and other assets in the funds and accounts established by the respective security agreements. A substantial portion of the assets of the Corporation are pledged to the outstanding obligations of the Corporation.

The Corporation's obligations are not a debt of the State, and the State is not directly liable thereon except for the Veterans Mortgage Program Bonds. The Veterans Mortgage Program Bonds are backed by the full faith and credit of the State. Although the Corporation has always made its Veterans Mortgage Program Bond payments, in the event that the Corporation cannot make the payments, the State would be responsible for the principal and interest.

Assets Pledged as Collateral for Debt

AHFC's bonds are secured by the general obligation of the Corporation and may also be secured with collateral from mortgages, investments and/or direct financing leases. See the table below (in thousands):

| | Mo | ortgages | Inve | stments | Leases | | Total |
|-------------|----|-----------|------|---------|--------|--------|-----------------|
| Housing | \$ | 2,013,925 | \$ | 144,344 | \$ | - | \$ 2,158,269 |

| Total | \$ | 2,013,925 | \$ | 144,344 | \$ | 10,158 | \$ 2,168,427 |

Redemption Provisions

The bonds are generally subject to certain early-redemption provisions, both mandatory and at the option of the Corporation. The Corporation redeems debt pursuant to the terms of the related agreements governing such redemptions. For housing bonds, such agreements typically permit surplus revenues resulting primarily from mortgage loan prepayments to be used to retire housing obligations at par. With respect to non-housing and direct placement bonds, such agreements typically permit optional redemptions at par from any source of funds on or after a specified date.

The Corporation also issues new debt whose proceeds are used to redeem previously issued debt, called current refundings. The related discounts and costs of issuance of the old debt are classified as a deferred outflow of resources and amortized as interest expense. The Corporation may call some bonds at a premium using any monies once bonds reach a certain age and may also use a clean-up call to redeem certain bonds once the outstanding amount falls below 15% of the total issuance.

During the six months ended December 31, 2024, the Corporation made special redemptions in the amount of \$52,815,000, of which \$39,980,000 was defeased in a prior period.

Bond Defeasances

There were no new bond defeasances during the six months ending December 31, 2024. A summary of defeased debt that will be redeemed on their first optional redemption date, as of December 31, 2024, follows (in thousands):

| | Month Defeased | December 31, 2024 |

Events of Default

Significant finance-related events of default with respect to the Corporation's outstanding housing, non-housing, and direct placement bonds include a failure to repay principal at stated maturity or upon redemption; a failure to pay interest when due; and a continued failure to comply with, or default in the performance or observance of, certain other covenants, agreements or conditions in the Indenture 45 days after having received written notice thereof.

Conduit Debt

From time to time, the Corporation has issued debt to assist private-sector entities in the acquisition or construction of facilities that help the Corporation fulfill its mission of making housing affordable for all Alaskans. The bonds are secured by the properties financed and are payable from rents, payments received on the underlying mortgage loans, as well as tax credits, grants and other subsidy funding. Neither the Corporation nor the State is obligated in any manner for repayment of the bonds. Accordingly, the bonds and any related assets are not reported as assets or liabilities in the accompanying financial statements.

A summary of all conduit debt as of December 31, 2024, follows (in thousands):

11 Derivatives

The Corporation entered into certain derivatives contracts to reduce its overall cost of capital and protect against the risk of rising interest rates. The Corporation's derivatives consist of interest rate swap agreements entered into in connection with its long-term variable rate bonds. The interest rate swaps are pay-fixed, receive-variable agreements, and were entered into at a cost less than what the Corporation would have paid to issue conventional fixed-rate debt.

^{**} Also see Note 11 - Derivatives.

A Component Unit of the State of Alaska

The swaps are recorded and disclosed as either hedging derivatives or investment derivatives. The synthetic instrument method was used to determine whether or not the derivatives constitute effective hedges. The fair values of the hedgeable derivatives and investment derivatives are presented in the Statement of Net Position, either as a derivative liability (negative fair value amount) or as a derivative asset (positive fair value amount). If a swap changes from a hedgeable derivative to an investment derivative, the hedge is considered terminated and the accumulated change in fair value is no longer deferred but recognized as a revenue item.

AHFC categorizes its fair value measurements within the fair value hierarchy established by Generally Accepted Accounting Principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The fair value amounts, obtained from mark to market statements from the respective counterparties and reconciled to present value calculations done by the Corporation, represent mid-market valuations that approximate the current economic value using market averages, reference rates, and/or mathematical models. These measurements are Level 2 inputs. Actual trade prices may vary significantly from these estimates as a result of various factors, which may include (but are not limited to) portfolio composition, current trading intentions, prevailing credit spreads, market liquidity, hedging costs and risks, position size, transaction and financing costs, and the use of capital profit. The fair value represents the current price to settle swap assets or liabilities in the marketplace if a swap were to be terminated.

The Corporation's interest rate swaps require that if the ratings on the associated bonds fall to "BBB+/Baa1", the Corporation would have to post collateral of up to 100 percent of the swap's fair value. As of December 31, 2024, the Corporation had not posted any collateral and was not required to post any collateral.

Credit Risk

As of December 31, 2024, the Corporation was exposed to credit risk on its State Capital Project Bonds II 2019 Series A, to the extent of the associated swap's positive fair value of \$5,741,000. The Corporation was not exposed to credit risk on its remaining swap agreements because these swaps all have negative fair values.

The Corporation's swap agreements require full collateralization of the fair value amount of a swap should the swap counterparty's rating fall to "BBB+/Baa1".

The Corporation currently has swap agreements with five separate counterparties. Approximately 60.9% of the total notional amount of the swaps is held with two counterparties rated "AA-/Aa2". Another 23.8.0% of the total notional amount of the swaps is held with another counterparty rated "A/Aa3". Of the remaining swaps, the counterparties are rated "A+/Aa2" and "A+/Aa1", approximating 10.5% and 4.9% respectively, of the total notional amount of the swaps.

Interest Rate Risk

The Corporation is exposed to interest rate risk on all of its interest rate swaps. As underlying indices such as SOFR or SIFMA change, the Corporation's net payment on its swaps will also change accordingly.

Basis Risk

The Corporation is exposed to basis risk when the variable payment received on an interest rate swap is based on an index that differs from the index on which the Corporation's variable-rate payment to its bondholders is based. In such instance, the float payment received from the swap counterparty may not fully offset the variable rate paid on the bonds.

As of December 31, 2024, the Corporation's interest rate swaps were based on the SOFR index, while its variable rate bonds were based on SOFR or SIFMA indexes.

The relative ratios among such indices have fluctuated since the Corporation's swap agreements became effective and will continue to do so as market conditions change.

Termination Risk

Termination risk is the risk of an unscheduled termination of a swap prior to its planned maturity. If any of the swaps are terminated, the associated floating rate bonds would no longer carry synthetic fixed interest rates and the Corporation would be exposed to interest rate risk on the bond. This risk is mitigated by the fact that the termination payment could be used to enter into an identical swap at the termination date of the existing swap. Further, if any of the swaps have a negative fair value at termination, the Corporation would be liable to the counterparty for payments equal to the swaps' fair value. The Corporation or the counterparty may terminate any of the swaps if the other party fails to perform under the terms of the agreement, including downgrades and events of default.

Rollover Risk

Rollover risk occurs when there is a mismatch in the amortization of the swap versus the amortization of the floating rate bonds. The Corporation has structured the swaps to amortize at the same rate as scheduled or anticipated reductions in the associated floating rate bonds outstanding.

15 DEFERRED INFLOWS OF RESOURCES

The Government Accounting Standards Board has defined deferred inflows of resources as the acquisition of resources that are applicable to a future period. As of December 31, 2024, AHFC recognized a combined total deferred inflows of \$20,125,000 as follows:

 Other Post-Employment Benefits ("OPEB") related deferred inflows totaled \$715,000, consisting of the sum of a) the difference of actuarial benefit assumptions vs. actual benefit experience in the amount of \$108,000 b) the net effect of changes in actuarial assumptions in the amount of \$589,000 and c) changes in proportional contribution levels among participating employers totaling \$18,000.

- Lease-related deferred inflows totaled \$13,669,000, consisting of one or more leases with local charitable organizations totaling \$62,000, with the Corporation's affordable housing subsidiary, the Alaska Corporation for Affordable Housing, totaling \$3,153,000, and the Pacillo Parking Garage lease in the amount of \$10,454,000.
- Derivatives-related deferred inflows totaled \$5,741,000.

Transfers are used to:

- 1. Move cash between the Administrative Fund and the Mortgage or Bond Programs to subsidize debt service payments or satisfy bond indenture requirements;
- 2. Move mortgages between the Administrative Fund and the Mortgage or Bond Programs;
- 3. Record expenditures paid on behalf of the Grant Programs, the Mortgage or Bond Programs, and the Other Funds or Programs by the Administrative Fund;
- 4. Move cash and mortgages between various Mortgage or Bond Programs; or
- 5. Record any non-reimbursable expenditures paid by the Administrative Fund on behalf of ACAH and cash transferred between the Administrative Fund and ACAH.

17 OTHER CREDIT ARRANGEMENTS

The Corporation currently has certain outstanding debt obligations in relation to which it has entered into standby bond purchase agreements ("SBPAs") to guarantee the payment of debt service in the event of unremarketed tenders. Additionally, in June 2022, the Corporation entered into a direct-pay letter of credit ("D-LOC") which guarantees the purchase of unremarketed tenders and the payment of regular debt service with respect to the Corporation's \$200 million State Capital Project Bonds II, 2022 Series A, and a \$200 million standby LOC ("S-LOC") to further secure debt issued under the State Capital Project Bonds II indenture and the Corporation's Commercial Paper Notes program.

As of December 31, 2024, the Corporation had the following available unused credit lines (in thousands):

18 YIELD RESTRICTION AND ARBITRAGE REBATE

Most mortgages purchased with the proceeds of tax-exempt mortgage revenue bonds issued by the Corporation are subject to interest-rate yield restrictions of 1.125% to 1.500% over the yield of the bonds. These restrictions are in effect over the lives of the bonds.

Non-mortgage investments made under the Corporation's tax-exempt mortgage revenue bond programs are subject to rebate provisions or restricted as to yields. The rebate provisions require that a calculation be performed every five years and upon full retirement of the bonds to determine the amount, if any, of excess yield earned. As of December 31, 2024, no rebate payments were due to the Internal Revenue Service, but the Corporation accrued the following rebate-related liabilities net of receivable:

| Bond Issue | December 31, 2024 | | | |
|---|-------------------|-----------|--|--|
| Collateralized Bonds (Veterans Mortgage Program), 2023 First Series | \$ | 17,000 | | |

19 STATE AUTHORIZATIONS AND COMMITMENTS

The Corporation uses its assets to fund certain housing and non-housing capital projects identified by the State. The aggregate amount expected to be funded by the Corporation was expressed by the following language of legislative intent included in the fiscal year 1996 capital appropriation bill, enacted in 1995.

"The Legislature intends to ensure the prudent management of the Alaska Housing Finance Corporation to protect its excellent debt rating by the nation's financial community and to preserve its valuable assets of the State. To accomplish its goal, the sum of withdrawals for transfer to the general fund and for expenditure on corporate funded capital projects should not exceed the Corporation's net income for the preceding fiscal year."

The projected amounts stated in the legislative intent language were based on the Corporation's financial operating plan and represent the total amount of anticipated State transfers and capital expenditures rather than projected "net income". The following table shows the cumulative total of all dividends due and payable to the State since 1991, and the remaining commitment as of December 31, 2024 (in thousands):

| | Dividend Due to State | | Expenditures | | Remaining Commitments | |
|-------------------------------------|-----------------------|-----------|--------------|-------------|--------------------------|---------|
| State General Fund Transfers | \$ | 799,514 | \$ | (789,881) | \$ | 9,633 |

Transfer Plan with the State

The 1998 Legislature authorized the Corporation to finance state capital projects through the issuance of up to \$224,000,000 in bonds. Debt service payments on such bonds are categorized as transfers pursuant to the Transfer Plan. That legislation also extended the term of the Transfer Plan by stating the Legislature's intent that the Corporation transfer to the State (or expend on its behalf) an amount not to exceed \$103,000,000 in each fiscal year through fiscal year 2006, again stating that, to protect the Corporation and its bond rating, in no fiscal year should such amount exceed the Corporation's net income for the preceding fiscal year. The bond proceeds are allocated to agencies and municipalities subject to specific legislative appropriation.

The 2000 Legislature adopted legislation authorizing the issuance of bonds in sufficient amounts to fund the construction of various State capital projects, and extended the Transfer Plan (as described above) through fiscal year 2008. The 2002 Legislature authorized the issuance of capital project bonds for the renovation and deferred maintenance of the Corporation's Public Housing facilities. The 2004 Legislature adopted legislation authorizing the additional issuance of bonds in sufficient amounts to fund the construction of various State capital projects. The bond proceeds are allocated to agencies and municipalities subject to specific legislative appropriation.

The Corporation has issued \$196,345,000 principal amount of State Capital Project Bonds pursuant to the 1998 Act, \$74,535,000 principal amount of State Capital Project Bonds pursuant to the 2000 Act, \$60,250,000 principal amount of State Capital Project Bonds pursuant to the 2002 Act, and \$45,000,000 principal amount of bonds under the State Capital Project agreement pursuant to the 2004 Act, and has completed its issuance authority under the Acts. The payment of principal and interest on these bonds will be included in future capital budgets of the Corporation. Debt service payments on such bonds are categorized as transfers pursuant to the Transfer Plan.

The Twenty-Third Legislature in 2003 enacted SCS HB 256 (the "2003 Act') which added language to the Alaska Statutes to modify and incorporate the Transfer Plan. The Corporation and the State view the 2003 Act as an indefinite, sustainable continuation of the Transfer Plan. As approved and signed into law by the Governor and modified by the Twenty-Fourth Legislature in 2006 with SB 236, the 2003 Transfer Plan calls for annual transfers that will not exceed the lesser of 75% of the adjusted change in net position for the fiscal year two years prior to the current fiscal year or \$103,000,000 less debt service on certain State Capital Project Bonds, less any legislative appropriation of the Corporation's unrestricted, unencumbered funds other than appropriations of the Corporation's operating budget.

20 Housing Grants and Subsidies Expenses

The grant programs are funded from HUD, federal, State and Corporate proceeds. The Corporation paid grants to third parties for the following programs (in thousands):

A sum of \$13,000,000, from the Corporation's Moving to Work ("MTW") Demonstration Program reserves in HUD, was transferred to ACAH to assist in funding the Fairbanks Affordable Housing Project, a multifamily housing project. ACAH advanced these funds to Fairbanks Affordable Housing, LLC in the form of a loan agreement, payable on earliest date or September 1, 2079. Interest and principal are payable at the interest rate of 3.14% annually.

In addition to grant payments made, the Corporation advanced grant funds of \$26,289,000, and committed to third parties a sum of \$68,145,000 in grant awards as of December 31, 2024.

21 Pension and Post-Employment Healthcare Plans

Description of Plans

As of December 31, 2024, all regular employees of the Corporation who work more than fifteen hours per week participate in the Alaska Public Employees' Retirement System ("PERS"). PERS administers the State of Alaska Public Employees' Retirement System Defined Benefit Retirement Plan, which includes both pension and post-employment healthcare plans for all employees hired prior to July 1, 2006. The defined benefit plan was an agent multiple-employer, statewide plan until July 1, 2008, when Senate Bill 125 converted the plan to a multiple-employer cost-sharing plan.

PERS also administers the State of Alaska Public Employees' Retirement System Defined Contribution Retirement Plan, which includes both pension and post-employment healthcare plans for all employees hired on or after July 1, 2006.

PERS is administered by the State. Benefits and contributions provisions are established by Chapter 35 of Alaska Statute Title 39, and may be amended only by state legislature. Amendments do not affect existing employees.

PERS audited financial statements are available at www.doa.alaska.gov/drb.

Defined Benefit ("DB") Pension and Post-Employment Healthcare Plans (Employees hired prior to July 1, 2006)

Employee Benefits:

Employees hired prior to July 1, 1986, with five or more years of credited service are entitled to annual pension benefits beginning at normal retirement age 55 or early retirement age 50. The normal pension benefit is equal to 2% of the member's three-year highest average monthly compensation for the first ten years of service and for all service prior to July 1, 1986, 2¼% for the second ten years of service and 2½% for all remaining years of service. Employees with 30 or more years of credited service may retire at any age and receive a normal benefit. The plan pays the retiree medical plan premium and provides death and disability benefits.

Employees hired between July 1, 1986, and June 30, 1996, with five or more years of credited service are entitled to annual pension benefits beginning at normal retirement age 60 or early retirement age 55. The normal pension benefit is equal to 2% of the member's three-year highest average monthly compensation for the first ten years of service, 2½% for the second ten years of service and 2½% for all remaining years of service. Employees with 30 or more years of credited service may retire at any age and receive a normal benefit. The plan does not pay the retiree medical plan premium for retirees under the age of 60 unless the retiree has 30 years of credited service. The employee may elect to pay the full premium cost for medical coverage.

Employees hired between July 1, 1996, and June 30, 2006, with five or more years of credited service are entitled to annual pension benefits beginning at normal retirement age 60 or early retirement age 55. The normal pension benefit is equal to 2% of the member's five-year highest average monthly compensation for the first ten years of service, 2½% for the second ten years of service and 2½% for all remaining years of service. Employees with 30 or more years of credited service may retire at any age and receive a normal benefit. The plan does not pay the retiree medical plan premium for retirees with less than 10 years of service at age 60. The employee may elect to pay the full premium cost for medical coverage.

This plan was closed to new entrants as of June 30, 2006.

The Defined Benefit Pension and Post-Employment Healthcare Plan issues financial reports that are available to the public on the SOA website: alaska.gov/drb/employer/resources/gasb.html.

Funding Policy:

Under State law, covered employees are required to contribute 6.75% of their annual covered salary to the pension plan and are not required to contribute to the post-employment healthcare plan.

Under State law, the Corporation is required to contribute 22.00% of annual covered salary. For fiscal year 2025, 22.00% of covered salary is for the pension plan and 0% is for the post-employment healthcare plan.

Under AS39.35.255, the State funds 4.76%, the difference between the actuarial required contribution of 26.76% for fiscal year 2025 and the employer rate of 22.00%.

The Corporation's contributions to the Defined Benefit pension plan for the six months ended December 31, 2024, totaled \$410,000.

Pension Liability:

The pension liability for the six months ended December 31, 2024 is not available at this time.

For the year ended June 30, 2024, the Corporation reported a liability for its proportionate share of net pension liability of \$34,162,000. This amount reflected State pension support provided to the Corporation of \$11,386,000. The total net pension liability associated with the Corporation was \$45,548,000.

The net pension liability for the June 30, 2023 measurement date, and the total pension liability used to calculate the new pension liability was determined by an actuarial valuation as of June 30, 2022, and rolled forward to June 30, 2023.

Pension Expense:

The pension expense for the six months ended December 31, 2024 is not available at this time.

For the year ended June 30, 2024, the Corporation recognized pension expense of \$3,249,000 and revenue of 705,000 for support provided by the State.

Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions:

The deferred outflow of resources and deferred inflow of resources for the six months ended December 31, 2024 are not available at this time.

For the year ended June 30, 2024, the Corporation's deferred outflows of resources related to pension expense of \$3,363,000 were due to a change in proportion and difference between employer contributions of \$892,000 and

A Component Unit of the State of Alaska

contributions to the pension plan subsequent to the measurement date of \$2,471,000. The Corporation's deferred inflows of resources related to pension is zero.

Contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability for the year ending June 30, 2025. The amounts recognized as deferred outflows of resources and deferred inflows of resources will be recognized in pension expense as follows (in thousands):

| Year Ended June 30, | Deferred Outflows of Resources | Deferred Inflows of Resources | Total |
|---------------------|-----------------------------------|----------------------------------|----------|
| 2025 | \$ 2,133 | \$ - | \$ 2,133 |

| 2028 | (46) | - | (46) |
| | \$ 3,363 | \$ - | \$ 3,363 |

Pension Employer Contributions:

In 2024, the Corporation was credited with the following contributions to the PERS plan:

| | Measurement Pe Corporation F | | Measurement Period Corporation FY22 | | |
|-----------------------------|---------------------------------|--------|--|-----------|--|
| Employer PERS contributions | \$ 3,55 | 00,000 | \$ | 2,918,000 | |

Pension and OPEB Actuarial Assumptions:

The total pension and OPEB Liability for the fiscal year ending June 30, 2024, was determined by an actuarial valuation as of June 30, 2022, rolled forward to the measurement date of June 30, 2023. The valuation was prepared assuming an inflation rate of 2.50%. Salary increases were determined by grading by service to range from 6.75% to 2.85%. The investment rate of return was calculated at 7.25%, net of pension and OPEB plan investment expenses, based on an average inflation rate of 2.50% and a real return of 4.75%.

Mortality rates were based on the Pub-2010 General Employee table, amount-weighted, and projected with MP-2021 general improvement. Deaths are assumed to result from occupational causes 35% fo the time.

The long-term expected rate of return on pension and OPEB plans investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension and OPEB plans investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Best estimates of arithmetic real rates of return, excluding the inflation component of 2.50%, for each major asset class included in the and OPEB plans' target asset allocation are summarized in the following table:

| Asset Class | Long-term Expected Real Rate of Return |
|--------------------------|---|
| Broad Domestic Equity | 6.17% |
| Global Equity (non-U.S.) | 6.55% |

Pension Discount rate:

The discount rate used to measure the total pension liability was 7.25%. The projection of cash flows used to determine the discount rate assumed that the Corporation and non-employer State contributions will continue to follow the current funding policy, which meets State statutes. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Corporation's proportionate share of the net pension liability to changes in the discount rate: The following presents the Corporation's proportionate share of the net pension liability using the discount rate of 7.25% and what it would be if the discount was 1% lower (6.25%) or 1% higher (8.25%), (in thousands).

Defined Contribution ("DC") Pension and Post-Employment Healthcare Plans (Employees hired on or after July 1, 2006):

Employee Benefits:

Defined Contribution Pension Plan participants (PERS Tier IV) participate in the Occupational Death and Disability Plan ("ODD"), and the Retiree Medical Plan ("RM"). Information on these plans is included in the comprehensive annual financial report for the PERS Plan noted above. These plans provide for death, disability, and post-employment healthcare benefits.

There is no retirement age set, however taxes and penalties may apply if withdrawn prior to age 59 ½. Retirement benefits are equal to the Defined Contribution account balance plus interest. The employee may direct the investment of the account if so desired. The account balance is 100% of the employee's contribution plus 25% of the Corporation's contribution after two years of service, 50% of the Corporation's contribution after three years of service, 75% of the Corporation's contribution after four years of service, and 100% of the Corporation's contribution after 5 years of service. The plan pays a portion of the retiree medical plan premium if the retiree retires directly from the plan and is eligible for Medicare. The portion of premium paid by the plan is determined by years of service.

Funding Policy:

Under State law, covered employees are required to contribute 8% of their annual covered salary to the pension plan and are not required to contribute to the post-employment healthcare plan. Employer contribution rates for fiscal year 2025 are as follows:

| | Other Tier IV |
|--|------------------|
| Pension Employer Contribution | 5.00% |
| Occupational Death and Disability Benefits (ODD) | 0.24% |
| Retiree Medical | 0.83% |
| Total OPEB | 1.07% |
| Total Contribution Rates | 6.07% |

Under State law, the Corporation is required to contribute 22% of annual covered salary. For fiscal year 2025, 6.07% of covered salary is split between 5.00% for the pension plan and 1.07% for the post-employment healthcare plan. Then, to offset additional individual post-employment healthcare cost, an annual flat dollar amount of \$2,386.80, representing 3% of total annual covered compensation in the Plan for each full-time employee, and \$1.53 per hour for part-time employees, is deposited in a Health Reimbursement Arrangement ("HRA") Account for each covered employee per AS 39.30.370.

Additionally, if the total amount that the Corporation has contributed for the defined contribution pension and postemployment healthcare plans is less than 22% of covered payroll after the HRA contributions, the Corporation must pay that additional amount. This additional amount is used to reduce the defined benefit plan's unfunded liability. For the six months ended December 31, 2024, the Corporation paid additional contributions of \$605,000. All of the contributions were for the defined benefit pension as of December 31, 2024.

The contributions to the pension plan for the six months ended December 31, 2024, by the employees totaled \$374,000 and by the Corporation totaled \$225,000.

The contributions to Other Post-Employment Benefits ("OPEB") plan by the Corporation for the six months ended December 31, 2024, totaled \$47,000.

The Corporation contributed \$140,000 to a Health Reimbursement Arrangement for the six months ended December 31, 2024.

The Defined Contribution Pension and Post Employment Healthcare Plan issues financial reports that are available to the public on the SOA website: alaska.gov/drb/employer/resources/gasb.html.

Other Post-Employment Benefits ("OPEB") Defined Benefit and Defined Contribution Plans

The Corporation did not contribute to the defined benefit post-employment healthcare plan for the six months ended December 31, 2024, and for the year ended June 30, 2024.

OPEB Employer Contribution Rate:

In 2024, the Corporation was credited with the following contributions to the OPEB plan:

| | Measurement Period Corporation FY23 | Measurement Period Corporation FY22 | | |
|-------------------------------|--|--|--|--|
| Employer contributions DB | \$ 44,000 | \$ 585,000 | | |

| Total Contributions | \$ 235,000 | \$ 759,000 | | |

Changes in Benefit Assumptions Since the Prior Valuation of OPEB:

The actuarial assumptions used in the June 30, 2022 actuarial valuation were rolled forward to the June 30,2023 measurement date. The actuarial assumptions used in the June 30, 2022 actuarial valuation, were based on the results of an actuarial experience study for the period from July 1, 2017 to June 30, 2021. The new assumptions were adopted to better reflect expected future experience and became effective June 30, 2022:

- For DC RM and PERS Alaska Retiree Healthcare Trust ("ARHT") per capita claims costs were updated to reflect recent experience.
- For all of the plans the amount included in the Normal Cost for administrative expenses was updated to reflect the most recent two years of actual administrative expenses paid from plan assets.

Key Elements of OPEB formula:

Liability and contributions shown in the report are computed using the Entry Age Normal Actuarial Cost Method. Projected pension and postemployment healthcare benefits were determined for all active members. Cost factors designed to produce annual costs as a constant percentage of each member's expected compensation in each year from the assumed entry age to the assumed retirement age were applied to the projected benefits to determine the normal cost (the portion of the total cost of the plan allocated to the current year under the method). The normal cost is determined by summing intermediate results for active members and determining an average normal cost rate, which is then related to the total payroll of active members. The actuarial accrued liability for active members (the portion of the total cost of the plan allocated to prior years under the method) was determined as the excess of the actuarial present value of projected benefits over the actuarial present value of future normal costs.

The actuarial accrued liability for retired members, their beneficiaries currently receiving benefits, terminated vested members and disabled members not yet receiving benefits was determined as the actuarial present value of the benefits expected to be paid. No future normal costs are payable for these members.

The actuarial accrued liability under this method at any point in time is the theoretical amount of the fund that would have been accumulated had annual contributions equal to the normal cost been made in prior years (it does not represent the liability for benefits accrued to the valuation date). The unfunded actuarial accrued liability is the excess of the actuarial accrued liability over the actuarial value of plan assets measured on the valuation date.

Post-employment healthcare benefits:

For DB plan major medical benefits are provided to retirees and their surviving spouses by PERS for all employees hired before July 1, 1986, (Tier 1) and disabled retirees. Employees hired after June 30, 1986, (Tier 2) and their surviving spouses with five years of credited service (or ten years of credited service for those first hired after June 30, 1996, (Tier 3)) must pay the full monthly premium if they are under age sixty and will receive benefits paid by PERS if they are over age sixty. Tier 3 Members with between five and ten years of credited service must pay the full monthly premium regardless of their age. Tier 2 and Tier 3 members with less than five years of credited service are not eligible for post-employment healthcare benefits. Tier 2 members, who are receiving a conditional benefit and are age eligible, are eligible for post-employment healthcare benefits. Employees and their surviving spouses with thirty years of membership service receive benefits paid by PERS, regardless of their age or date of hire.

Medical, prescription drug, dental, vision and audio coverage is provided through the AlaskaCare Retiree Health Plan. Health plan provisions do not vary by retirement tier or age, except for Medicare coordination. Surviving spouses continue coverage only if a pension payment form that provided survivor benefits was elected. Where premiums are required prior to age 60, the valuation bases this payment upon the age of the retiree.

Starting in 2022, prior authorization will be required for certain special medications for all participants, while certain preventive benefits for pre-Medicare participants will now be covered by the plan.

Of those benefit recipients who are eligible for the COLA, 65% are assumed to remain in Alaska and receive COLA. 50%-75% of assumed inflation, or 1.25% and 1.875%, respectively, is valued for the annual automatic Post-Retirement Pension Adjustment ("PRPA").

For DC RM and DC ODD retirement eligibility: must retire from the plan and have 30 years of service or be eligible for Medicare and have 10 years of service. Once member becomes eligible for Medicare, the required contribution follows a set plan schedule. The plan's coverage is supplemental to Medicare, referred to in the industry as exclusion coordination. Medicare payment is deducted from the Medicare allowable expense and plan parameters are applied to the remaining amount. Starting in 2019, the prescription drug coverage will be through a Medicare Part D Employer Group Waiver Plan ("EGWP") arrangement. The premium for dependents who are not eligible for Medicare aligns with the member's subsidy. While a member is not Medicare-eligible, premiums are 100% of the estimated cost. Occupational Disability and Death benefit are 40% of salary at date of qualifying event. Medicare exclusion coordination applies to ODD benefits.

OPEB Asset.

The total net OPEB asset and total net liability for the six months ended December 31, 2024, are not available at this time.

For the year ended June 30, 2024, the total net OPEB Asset associated with the Corporation was \$15,848,000 and the total net OPEB Liability associated with the Corporation was zero.

For the year ended June 30, 2024, the Corporation reported an asset for its proportionate share of the net OPEB Asset ("NOA") that reflected an increase for State OPEB support provided to the Corporation. The amount recognized by the Corporation for its proportional share, the related State proportion, and the total were as follows:

| Corporation's proportionate share Net OPEB Asset: | 2024 |
|---|------------------|
| Corporation's proportionate share of NOA – DB | \$ 15,124,000 |
| Corporation's proportionate share of NOA – DC RM | 380,000 |
| Corporation's proportionate share of NOA – DC ODD | 344,000 |
| Total Net OPEB Asset | \$ 15,848,000 |

The net OPEB asset was measured as of June 30, 2023, and the total OPEB asset used to calculate the new OPEB asset was determined by an actuarial valuation as of June 30, 2022, and rolled forward to June 30, 2023.

Changes in Benefit Provisions Since Prior Valuation of OPEB:

There have been no changes in PERS DCR benefit provisions valued since the prior valuation.

OPEB Expense:

For the year ended June 30, 2024, the Corporation recognized a reduction of OPEB expense of \$1,693,000 and no support provided by the State.

Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB:

For the year ended June 30, 2024, the Corporation reported deferred outflows of resources and deferred inflow of resources related to OPEB from the following sources (in thousands):

| Year Ended June 30, 2024 | Deferred Ou of Resour | | Deferred Inflows of Resources | | |
|--|--------------------------|-------|-------------------------------|-------|--|

| Changes in proportion and differences between employer contributions | | 122 | | (18) | |
| Total Deferred Outflows and Deferred Inflows | \$ | 3,612 | \$ | (715) | |

Deferred outflows of resources related to OPEB resulting from contributions of \$2,678 reported subsequent to the measurement date, will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2025. Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows (in thousands):

| Year Ended June 30, | Total |

OPEB Discount rate:

The discount rate used to measure the total OPEB liability was 7.25%. The projection of cash flows used to determine the discount rate assumed that the Corporation and non-employer State contributions will continue to follow the current funding policy, which meets State statutes. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability in accordance with the method prescribed by GASB Statement No. 74.

Sensitivity of the Corporation's proportionate share of the net OPEB asset to changes in the discount rate: The following presents the Corporations proportionate share of the net OPEB asset using the discount rate of 7.25% and what it would be if the discount was 1-percentage-point (6.25%) lower or 1-percentage-point higher (8.25%), (in thousands).

OPEB plan's fiduciary net position:

All information regarding the Plan's assets, deferred outflow/inflow of resources, liabilities and fiduciary net position can be found in the PERS financial statements that are available to the public on the SOA website: http://doa.alaska.gov/drb/employer/resources/gasb.html#.YMPxY6hKg2x.

Annual Postemployment Healthcare Cost:

The annual postemployment healthcare cost for the six months ended December 31, 2024, is not available at this time.

For the year ended June 30, 2024, the Corporation recognized \$474,000 in DC OPEB costs. These amounts were recognized as expense.

22 OTHER COMMITMENTS AND CONTINGENCIES

Medical Self Insurance

During the fiscal year ended June 30, 1998, the Corporation began a program of self-insurance for employee medical benefits. Costs are billed directly to the Corporation by an Administrative Services Provider that processes all of the claims from the employees and their dependents. The Corporation has purchased a stop-loss policy that limits its liability to \$200,000 per employee per year. The Corporation provided an estimate of the incurred but not reported (IBNR) liability based on historic trends. Changes in the balances for the claims liabilities for the prior and current fiscal years are as follows (in thousands):

| | June 30, | 2024 | December 31, 2024 | | |
|---------------------------------------|----------|---------|-------------------|---------|--|
| Claims liabilities, beginning balance | \$ | 3,013 | \$ | 2,468 | |

| Claims payments | | (8,246) | | (4,636) | |
| Claims liabilities, ending balance | \$ | 2,468 | \$ | 2,607 | |

Litigation

The Corporation, in the normal course of its activities, is involved in various claims and pending litigation, the outcome of which is not presently determinable. In the opinion of management, the disposition of these matters is not presently expected to have a material adverse effect on the Corporation's financial statements.

Contingent Liabilities

The Corporation participates in several federally assisted programs. These programs are subject to program compliance audits and adjustment by the grantor agencies or their representatives. Any disallowed claims, including amounts already collected, would become a liability of the Administrative Fund. In management's opinion, disallowance, if any, will be immaterial.

A Component Unit of the State of Alaska

Subsequent Events

On February 7, 2025, pursuant to Senate Bill No. 205, the Corporation closed on the purchase of the maintenance building it currently occupies located at 700 Bragaw Street, Anchorage, Alaska. A sum of \$7,519,000, from the Corporation's Moving to Work ("MTW") Demonstration Program HUD held reserves, was used to fund the acquisition.

23 RISK MANAGEMENT

The Corporation is exposed to various risk of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. These risks are covered by various commercial insurance policies and contractual risk transfers. When the Corporation enters into agreements, contracts or grants, it requires insurance from the party with which the Corporation is doing business. This ensures that the party can adequately sustain any loss exposure, so the Corporation is not first in line in case of a loss. There have been no significant reductions in insurance coverage from the prior fiscal year, and settlements have not exceeded insurance coverage during the past three years.
